- Please don't hide the snippets with fixed images. We need to find another way to manipulate this

Footers (https://print-css.webmag.io/snippets-for-testing/footers)
- I added more "next article" snippets -> Please hide all of them as default
- Normal Footers can stay

Headers

- The logo should not use the whole page

Covers

- The image is gone

Please test these Magazines and try to make them good looking :) You have to use the Chrome plugin again to add your CSS to these examples. I know that we cant make all of them perfect. We will introduce some print specific features for our editor like "add page break", "hide snippet in print", "only show snippet in print",...

When there is something, that is not doable, please write that down. We want to get to a css version, where we don't have significant render issues in print in random magazines, that's the goal.
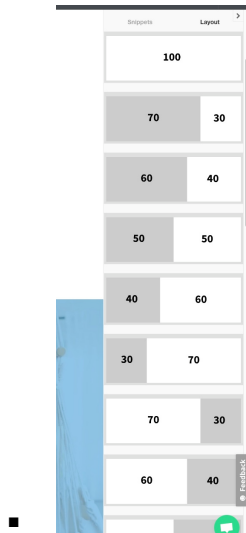

Examples to test (all these mags have multiple pages. You can easily navigate with the arrow keys):
- https://content.easy-software.com/whitepaper/whitepaper-easy-request-en/illuminating-dark-spots-in-purchasing-management
   o Text does not break between the pages. Would be nice if that would work
- https://tennet-steckbriefe.webmag.io/steckbriefe-1/onshore/conneforde-sottrum
   o Strange paddings underneath the image

Abschnitt 1: Conneforde - Elsfleth/West

   o

- o https://magazin.iveco.de/ivecoyou/2-2022/e-daily-und-nikola-tre-bev-als-4x2
    - ▪ Strange width
    - ▪ There is another navigation, that also has to be hidden
  - o https://magazin.iveco.de/ivecoyou/2-2022/iveco-und-iveco-bus-beim-giro-d-italia
    - ▪ Uses a different layout. You can find the Layout switcher in the editor
    - ▪
- https://brandbook.reb.institute/brand-book-2023/immobilien-und-ki-zukunft
  - o Also different navigation
  - o Images get cut off
- https://e-mag.prozesstechnik-portal.com/prozesstechnik/ausgabe-6-2023/anlagenstatus-jederzeit-ueberpruefen
  - o Fixed top snippet is on each page
  - o Also different navigation has to be hidden
